IP68 TECHNOLOGY

Reliability is The Most Important Factor

- Patented IP68 design disperses heat from LED to maintain thermal characteristics for optimal long life performance.
- IP68 stability is attained through high precision machining of the housing for a perfect threaded mechanical fit.
- IP68 protection without the use of glue or sealants that are subject to change in extreme environments ensures long life and easy maintenance.
- Robust fixture, the construction is able to bear 2,000 KGS compression and is compliant with IK10.

IG-112 Inground Landscape Light

Features

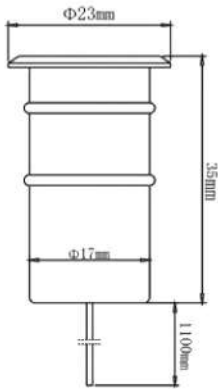

- Creates striking wall effect with focus beam.
- IP68 design with integral thermal management for long life.
- High precision machining ensures perfect mechanical fit.
- Stainless steel (316) ensures corrosion free outdoor performance in salty and damp environments.

Material

- Body: Stainless steel 316
- Glass: Tempered glass

Applications

- Outdoors, gardens, landscapes (submersible up to 9m)

IG-112 Inground Landscape Light Series
 External 350mA LED driver is required for single colour
 External 12VDC LED driver is required for RGB colour
 Lumen output: 100lm

Product Code	Lumen output	Beam	LED power	System power	CCT	CRI	LED Brand
LED-IG-112-W	100lm	60°	1W	1.2W	3000K	80	CREE

IG-118 Inground Landscape Marker Light

Features

- A perfect marker light for in-ground, underwater or outdoor applications.
- IP68 design with integral thermal management for long life.
- High precision machining ensures perfect mechanical fit.
- Stainless steel (316) ensures corrosion free outdoor performance in salty and damp environments.

Material

- Body: Stainless steel 316
- Glass: Tempered frosted glass

Applications

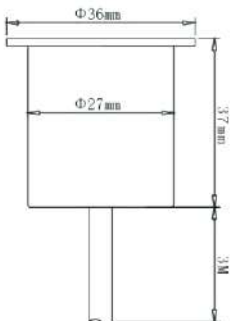

- Outdoors, gardens, landscapes (submersible up to 9m)

IG-118 Inground Landscape Light Series

IG-119 Inground Landscape Light

Round LED-IG-119

Square LED-IG-119

Features

- Creates striking wall effect with focus beam.
- IP68 design with integral thermal management for long life.
- High precision machining ensures perfect mechanical fit.
- Stainless steel (316) ensures corrosion free outdoor performance in salty and damp environments.

Material

- Body: Stainless steel 316
- Glass: Tempered glass

Applications

- Outdoors, gardens, landscapes (submersible up to 9m)

EPO micro CVL Ground Light

Features

- A perfect marker light for in-ground, underwater or outdoor applications.
- IP68 design with integral thermal management for long life.
- High precision machining ensures perfect mechanical fit.
- 8 mm tempered glass lens supports up to 2,000 kg “drive over” performance.
- Very low surface temperature lens can be touched without injury.

Material

- Cover: Stainless steel 316
- Body: Anodized Aluminium
- Glass: Tempered glass

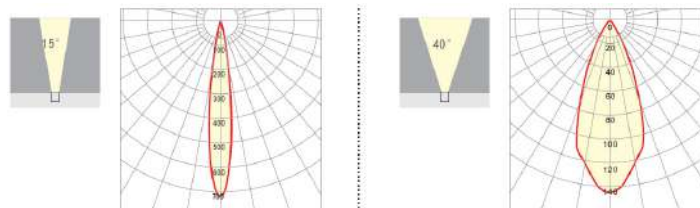

Applications

- Outdoors, gardens, landscapes

EPO Micro CVL Ground Light Series
 External 24VDC LED driver is required (Non-Dimmable)
 Lumen output: 70-80lm

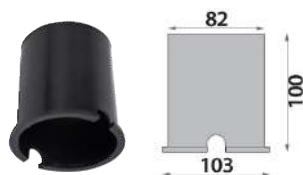

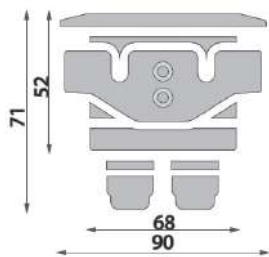

Product Code	Lumen output	cd	Beam	LED power	System power	CCT	CRI	LED Brand

EOS mini CVL Spike Light

Features

- Creates striking wall effect with focus beam.
- IP68 design with integral thermal management for long life.
- High precision machining ensures perfect mechanical fit.
- Stainless steel (316) front face ensures corrosion free outdoor performance in salty and damp environments.
- Optional stake mounting offers easy installation and tool free repositioning.
